PROFESSIONAL SUMMARY

I am a Third-year engineering student with a vision to build real-time digital solutions using web technologies and AIML. Holding a strong foundation in solving real-world problems through efficient, scalable, and user-centric applications with a continuous learning mindset.

WORK EXPERIENCE

Software Development Intern | Internship

Nov 2025 - Present

Edunet Foundation

Pune

- Completed a **Software Development**-focused internship under the **Educate to Employ Program** at **Edunet Foundation**, acquiring hands-on experience in **ABAP Software** to develop real-world, data-driven solutions with expert mentorship.
- Successfully finished SAP's "**Launchpad to Success**" Job Readiness Program, significantly enhancing employability, communication, and professional skills while advancing technical expertise.

Technologies / Skills Used : SAP Technology , ABAP Software , Backend Development

EDUCATION

Abhinav Vidyalaya High School

CGPA : Distinction

10th

MES Aabasaheb Garware College

CGPA : Distinction

12th

Padmabhooshan Vasantdada Patil Institute Of Technology

CGPA : 7.81/10

Bachelor of Engineering

PROJECTS

MandirGo – Smart Temple Pilgrimage Management System

Website :- www.mandirgo.com

- Mandirgo** is a web-based system to manage darshan slot booking, crowd flow and overall experience of devotees which makes temple management easier to handle and reduces manual workload for temple authorities during peak hours.
- Used modern technologies and basic data analysis to improve crowd management and scheduling, helping the system achieve around **92% accuracy** in predicting crowd levels and supporting better decision-making.

Technologies / Tools Used : React, Node.js, JavaScript , SQL , Python (AIML)

DevTribe Global Student Collaboration & Event Platform

- Developed **DevTribe**, a collaborative platform that connects students from various colleges and international universities to facilitate project collaboration, especially for those without a team.
- Introduced an **event discovery feature** enabling college and university organizers to list their fests and events, significantly increasing reach, boosting participation, and fostering stronger inter-college and global student connections.

Technologies / Tools Used : React, Tailwind CSS , Node.js, Express, SQL, REST API's

SKILLS

Programming Languages : C++, Python, HTML , CSS, JavaScript, PHP, Java, TypeScript, R, Object Oriented Programming

Frameworks & Libraries : React, Bootstrap , Tailwind CSS , Next.js, Express, NumPy, Pandas, OpenCV, Matplotlib, Scikit-learn, TensorFlow

Tools & Platforms : Git, GitHub, Node.js, Postman, Jupyter Notebook, Anaconda, Supabase

Databases : MySQL, MongoDB

Soft Skills : Leadership , Communication, Problem Solving, Critical Thinking, Public Speaking , Time Management

Languages : English, Marathi , Hindi

AWARDS & ACHIEVEMENTS

SIH '25 Internal Nomination for the Finale, NAAC Project Participation, **Leader of Marketing Team** during Department Fests, Completed **Programming in C and C++** Certification, Attended **OpenCV Boot Camp** Certification, Achieved **Generative AI** Certification, Obtained **SAP Technology Consultant** Professional Certification, Earned **SAP ABAP Platform Fundamentals** Certification, Completed **SAP's Job Readiness Program** Certification
